Starting on United Factions

When you first join our server you spawn in our lobby server. In this server there is a lot of activity going on. The lobby server is **our main server**.

A few things you will find when you spawn:

- The **Auction house**, this is where you can find auctions of other players, and you can start your own auctions here.
- The **Bank of United Factions**, this is where you can exchange your balance for emeralds.
- The **Dungeon Skeleton,** this is where you can access the dungeons of United Factions.
- The **Voting Office,** this is where you can read more about Voting and earning cash for your vote!
