Channels

How to switch chat channels?

You can type **/channel type** to change chat channel. for example, **/channel global** will put you in global chat.
/channel local will put you in local chat.

What is Faction chat?

Faction chat is chat that is only read and seen by your own Faction. You can use it with : **/f chat** it works like a toggle;

- type it once to be in **faction chat only**, type it again to **return** to **global** or **local chat**!

I hope this was helpful! Good luck! Any questions, feel free to ask!
