

# Channels

## How to switch chat channels?

You can type **/channel type** to change chat channel. for example, **/channel global** will put you in global chat.

**/channel local** will put you in local chat.

## What is Faction chat?

Faction chat is chat that is only read and seen by your own Faction. You can use it with : **/f chat** it works like a toggle;

- type it once to be in **faction chat only**, type it again to **return** to **global** or **local chat**!

I hope this was helpful! Good luck! Any questions, feel free to ask!
